RAIFA TK | Data Analyst

Malappuram, Kerala, India | +91 9048709663 | raifatpk@gmail.com | LinkedIn | GitHub | Portfolio

Professional Summary

Data Analyst with 2+ years of experience in Business Intelligence, ERP Analytics and Data Consulting. Skilled in SQL, Python, Power BI and Advanced Excel, with experience developing 10+ interactive dashboards and 100+ custom SQL reports. Hands-on experience in ERPNext data migration (1M+ records), data transformation, bilingual Arabic-English data processing, ERP-to-portal data workflows and AI-assisted data preparation.

Technical Skills

Data Analysis & BI: Data Analysis, Data Visualization, Dashboard Development, Business Intelligence (BI), KPI Reporting
Power BI & Excel: Power BI (DAX, Power Query, Data Modelling, Drill-through, Gateway), Advanced Excel (Pivot Tables, VLOOKUP, Power Query, Power Pivot), Tableau
Databases & Languages: SQL (PostgreSQL, MySQL, SQL Views), Python (Pandas, NumPy, Matplotlib, Seaborn)
Data Engineering: ETL (Extract, Transform, Load), Data Cleaning, Data Migration, Data Transformation, Data Integrity
ERP & AI: ERPNext (Reports, Dashboards, Workflows), Claude AI, AI Data Preparation
Tools: Git, GitHub, Jupyter Notebook, VS Code

Work Experience

Data Analyst | ERP Gulf *May 2025 – Present*

- Migrated 1M+ records across 20+ DocTypes into ERPNext, including cleaning, transformation and validation of bilingual Arabic-English automotive records, with 90% of records passing validation.
- Developed 100+ custom SQL Query Reports in ERPNext for operational reporting and data validation.
- Prepared and structured 6–7 datasets for ChangeAI, an AI-integrated chatbot initiative.
- Validated ERP-to-portal data for approximately 5,000 automotive products, checking consistency between ERPNext records and portal displays.

Data Analytics Mentor | BEAT Centre of Excellence *July 2025 – June 2025*

- Mentored 60+ learners across 4 batches in Python, SQL and data visualization (Power BI, Excel) through a custom curriculum, hands-on exercises and portfolio projects.

Data Consultant | Rows & Columns *July 2024 – May 2025*

- Designed and delivered 10+ interactive Power BI dashboards for clients across 3 sectors: retail, finance and logistics.
- Automated 15+ Excel reporting templates using Pivot Tables for operational and financial tracking, saving about 5 hours per week.
- Prepared profit and loss (P&L) statements and financial performance reports to support business review.
- Built SQL-based ETL workflows to extract, transform and prepare relational database data for client-facing dashboards.
- Trained 50+ business professionals across multiple sessions on SQL, Power BI and Excel.

Key Projects

AMRUT Project Monitoring System (PMS) | AMRUT Kerala, Govt. of Kerala | **Presentation** | **Live Dashboard** *2025*

- Built the reporting layer for a Government of Kerala dashboard covering 1,800+ projects, ₹6,000+ Cr in project value and 93 urban local bodies.
- Developed PostgreSQL views and multiple DAX measures to track project progress, budget utilization, bill clearance, delays and risk.
- Delivered a 7-page Power BI report with project- and package-level drill-through and scheduled data refresh.
  Tech: PostgreSQL, SQL Views, DAX, Power BI (drill-through, gateway, scheduled refresh)

WQMIS: Water Quality Monitoring | AMRUT Kerala, Govt. of Kerala | **Presentation** | **Live Dashboard** *2025*

- Developed a water quality dashboard covering 67,000+ samples, classifying results as safe, moderate or unsafe by district, source and season.
- Created SQL views and DAX measures across 6 Power BI report pages, including a district map.
  Tech: SQL Views, DAX, Power BI (map visual, gateway, scheduled refresh)

Education

B.Tech, Computer Science & Engineering | MEA Engineering College, Perinthalmanna *2019 – 2023*

Certifications & Achievements

- Google Data Analytics Professional Certificate (Coursera)
- Excel: Mother of Excellence (Codebasics)
- Accenture North America Data Analytics & Visualization Job Simulation (Forage)
- Published research paper in IJERT: Parkinson's Disease Prediction Using Deep Learning
